

Model 63 bench

Niels Otto Moller, 2016

Description

Model 63 bench by [Niels Otto Moller](#) for [J.L. Mollers Mobelfabrik](#).

In 1944, Niels Otto Møller founded J.L. Møllers Møbelfabrik in Denmark. J. L. Møllers Møbelfabrik produces chairs of extremely high quality, in timeless designs. The chairs are sold around the world and the Møller chair has become the epitome of Danish design.

Furniture from J.L. Møller is assembled using old craft techniques. As far as possible no modern technology is used. Each employee is a specialist in a specific process for creating each item, giving it a unique quality and elegance. All tenons, mortices and dowels are all glued by hand. Each bench is also polished by hand to give a better result than using a polishing machine.

The Nils Moller model 63 bench was designed in 1963 and exemplifies the quality of design and construction.

Seat available with natural or black woven cord, customer's own material, Roma leather, group A fabric ([Capture](#), [Mood](#)) or group B fabric ([Hallingdal 65](#), [Molly 2](#), [Fame](#)). Click links to view fabric images and information.

COM - 1.7m fabric required, min order x2 benches.

Frame in beech (soaped, oiled or lacquered), maple (soaped or lacquered), oak (soaped, oiled or lacquered), teak (lacaquered, then oiled) or walnut (oiled or lacquered). Images available on downloadable wood finishes pdf.

Please enquire if you wish to supply your own fabric or if you require fabric samples.

Dimensions:

150w x 40d x 46cmh.
