

Stoff candlestick

Werner Stoff, 1967

Description

Stoff candlestick by **Werner Stoff** for [Just Right](#).

The Stoff candle holder system is a classic of mid-century design, conceived by German architect Werner Stoff in the 1960s.

Previously only available as a sought-after vintage item, the Stoff candlestick is now reissued in brass as well as its original stainless steel finish.

Each Stoff candlestick unit has three tubular candle holders linked in tripod form by a triangular element. Units can be combined and built up into elaborate structures which can be as symmetrical or freeform as you desire.

Made of zinc, available with a chrome or brass finish.

Dimensions:
9.5w x 10d x 6cmh
