

Magnetic poster frame

THABTO, 2017

Description

Magnetic poster frame designed by [THABTO](#).

THABTO's magnetic poster frame system offers an ingenious and elegant way to hang posters without the need for cumbersome picture frames.

Each hanger set consists of a pair of plywood strips which can be attached to the top and the bottom of the paper you wish to hang. High-strength magnets set into the wood hold the wooden strips in place. Once joined together, the plywood pieces have a seamless square profile.

The uppermost plywood strip has a natural cord for hanging. Two holes also allow the hanger to be mounted on the wall using nails or screws if hanging is not desired.

Available in small, medium and large sizes.

Dimensions:
Small: 32cm wide/A3
Medium: 44cm wide/A2
Large: 62cm wide/A1
