

ISP table light

Ilia Potemine, 2017

Description

ISP table light by [Ilia Potemine](#) for [DCW éditions](#).

The ISP range marks a new generation of lighting from DCW éditions. Futuristic yet elegant, the ISP light is as much an object of beauty as it is a practical light for the home.

A translucent rod containing an LED light source glides from its brass enclosure along a solid marble base, the intensity of the light determined by how much of the rod is revealed.

When the light is completely revealed, it diffuses a comfortable yet powerful light. When the light is slid further down the tube, the light takes on a warm quality.

Polished brass enclosure, with marble base available in white or black marble.

Dimensions
55w x 12d x 12cmh

Light source:
8W integrated LED
