Royal System shelves and workstation configuration by [Poul Cadovius](#) for [DK3](#).

Ex-display item reduced by 30%

£4,872 -30% now £3,410

This item is a one-off clearance item to be sold on a first order, first served basis.

The Royal System was conceived by the Danish designer in 1948. Recognised with a Gold Medal at the Finland Furniture Fair in 1950 and silver at Milan Triennale, the system set a benchmark for wall storage design.

One of the first wall-hung storage systems, its graceful styling and the fact it can be configured in many different combinations made it a success. The Royal System is produced to exacting standards and offers great flexibility to extend or reconfigure.

The configuration on offer is in walnut with brass hangers and consists of the following elements: 3x 200cm-high [Royal System rails](#) forming twin bays, 6x 24cm-deep [Royal System shelves](#), 1x [Royal System work unit](#) with drop-down desk and internal fittings and 1x [Royal System cupboard](#) with 2 doors and 1 internal shelf.
