

Maissi bench

Kaksikko, 2017

Description

Maissi bench by [Kaksikko](#) for [Skagerak](#).

The Maissi bench was created by the design studio Kaksikko, established by Helsinki based designers Salla Luhtasela and Wesley Walters. The bench was first introduced at an exhibition of Finnish design in Mexico.

The unique design features a curved wooden rail, asymmetrically framing the back and one side of the seat, taking inspiration from traditional stair bannisters and industrial machinery parts.

The contemporary bench comfortably seats two, it's versatile, narrow form makes it ideal for smaller spaces such as a hallway but equally the clean-lined, open-framed bench feels at home in any room in the house.

Untreated wood can be affected by grease and colourants. Therefore, it is recommended that you saturate it with furniture oil or soap to make it more resistant. The colour of the wood will change once oil or soap is applied. If you wish to leave the wood untreated you can clean it by using a suitable wood cleaning agent.
