

Canteen table

Klauser and Carpenter, 2009

Description

Canteen table by [Klauser and Carpenter](#) for [Very Good and Proper](#).

The Canteen table results from a commission that Very Good & Proper received to develop a cost efficient table solution for the Canteen Baker Street restaurant in London.

The Canteen table is quick and simple to put together and easy to dismantle and store. A key design feature of the elegant gravity cast aluminium leg is that it fixes directly to the tabletop eliminating the need for a bracing system.

Inspired by Ernest Race's BA chair and the cast iron brackets that typically support Victorian cisterns, Klauser and Carpenter wanted to apply a similar attention to detail to a relatively mundane object.

Aluminium legs available powder-coated in grey white, unfinished aluminium or graphite. Special RAL colours available on request. Please enquire for details.

Table top in linoleum with birch ply core or in light oak or walnut veneer.
