

Peggy hook

Sebastian Wrong, 2019

Description

Peggy Hook by [Sebastian Wrong](#) for **Owl**.

The Peggy hook designed by Sebastian Wrong offers a simple, functional storage solution. Taking reference from classic Shaker peg rails from the 1820s, the contemporary design becomes a graphic rack, ideally suited to hallways, kitchens or bathrooms. The versatile design is available in three sizes, with three, five or nine hooks.

Made of FSC oak with a polyurethane matt lacquer and steel fixings.

The Peggy hooks are produced through a new label set up by Wrong and utilise CNC technology to create a timeless and simple profile. OWL (Objects With Life) oversee the production of functional, practical and well-made objects for everyday use.

Made in the EU.
