

VL38 table lamp, white

Vilhelm Lauritzen,

Description

VL38 table lamp, white by [Vilhelm Lauritzen](#) for [Louis Poulsen](#).

Ex-display item reduced by 35%
£435 -35% now £283

This item is a one-off clearance item to be sold on a first order, first served basis.

Architect Vilhelm Lauritzen originally designed the VL38 light for the Danish broadcasting company's headquarters building in Copenhagen, known as the Radiohuset (now home to the Royal Danish Academy of Music).

This simple, functional and elegant design was originally produced by Louis Poulsen and has now been reissued to Lauritzen's design specification, in its original form.

The VL38 has an organically-shaped shade made of spun aluminium, powder-coated white and obliquely angled to direct light downwards and provide illumination without glare. Shade is white within to ensure a soft and comfortable light is issued.

The brushed brass stem is hinged just above the shade to enable adjustment of the light head.

Ideal for use as a task light or for more general illumination.

Available in white.

Supplied with 3.3m plastic covered cord. Brass switch on lamp stand. Two light levels.

The VL38 is also available as a [floor](#) and [wall light](#). See 'More products in this range' below

Light source (not included):
10W LED 2700K

Dimensions:
13.5w x 17.5d x 38cmh
Shade diameter: 13.5cm
