

Gro flowerpot

Description

Gro flowerpot by **Christian Bruun** for [Rosendahl](#).

Inspired by the variability of nature and the interaction of light and shade, renowned ceramist Christian Bruun created the Gro range.

The distinctively textural, hexagonal surface pattern of the plant pots plays with the moving light, their appearances changing throughout the day.

The raw organic forms are handmade and fired, making each vessel unique.

The flowerpots are weatherproof and can be used both indoors and out.

Available in two sizes.
