

Essence teapot

Finn Juhl,

Description

Essence teapot by [Finn Juhl](#) for [ArchitectMade](#).

Put the kettle on with the iconic Danish architect Finn Juhl. The tea service was originally designed in 1952, a unique hand-glazed set comprised of a teacup, teapot and sugar bowl.

The teapot's fluid form is characteristic of Juhl's individual take on modernism; it is clean and crisp but also undulating and natural. It is constructed from thin porcelain and has a patient glaze. The mid-century design is now a contemporary classic.

The Essence teapot can be paired with [Essence tea cup and saucer](#).
