

# Rope chair

Ronan & Erwan Bouroullec, 2020

## Description

**Rope chair** by [Ronan & Erwan Bouroullec](#) for [Artek](#).

The Rope chair is a translation of a line drawing rendered into three dimensions. It's striking form, more like a silhouette, is an amalgamation of refined engineering and artistic expression, a contrast of solid and flexible elements. Designed for Marine use, the rope forms the weight-bearing part of the construction, allowing the chair to offer dynamic support. This adaptability affords the Rope chair unexpected comfort, its resting form co-defined by the sitter.

The chair consists of a powder-coated steel frame with ash veneer seat and rope armrests. Available in black with polyester rope or light grey with natural flax rope.

Dimensions:  
48.5w x 43.5d x 45.5/80cmh

**Product code**  
ARE-2810450\*

**Delivery**  
Made-to-order: 6-10 week

**Price**  
£495.00
