

Vases Découpage

Ronan & Erwan Bouroullec, 2020

Description

Vases Découpage designed by [Ronan & Erwan Bouroullec](#) for [Vitra](#).

The Vases Découpage is a mix-and-match collection of ceramic vases designed by Ronan and Erwan Bouroullec in collaboration with Vitra.

Each vessel features a cast cylinder combined with an assortment of abstract slabs and extruded bars which can be attached or placed inside to create a variety of arrangements.

The uniformity of the cylinder, the diversity of colour and the irregular form of each slab creates a playful balance, inviting rearrangement of the elements to create personal and lively compositions.

The vases are traditionally produced in Portugal, the ceramic pieces coated and vitrified with a translucent glaze using a new firing process to make them waterproof.

The Vases Découpage are available in the three designs: Barre, Disque and Feuille, please see the product specification pdf in Product Downloads.

The project was first presented at Salone del Mobile 2019.

Dimensions:

Barre: 26w x 18d x 67cmh
Disque: 16w x 16d x 32cmh
Feuille: 22w x 19d x 32cmh
