

Eames EA 108 chair

Charles & Ray Eames, 1958

Description

Eames EA 108 chair by [Charles & Ray Eames](#) for [Vitra](#).

The chairs in the Aluminium Group are the most famous creations by Charles and Ray Eames. Designed in 1958, they rate amongst the great achievements in the design history of the 20th century.

An important characteristic of the Aluminium Chair is the intelligent combination of materials. It has a clear, transparent form and its construction is clearly visible. Aluminium sections lend the chair both stability and lightness. The material is fixed into the side sections, yet fitted loosely so that it follows the line of the body and is comfortable without requiring extensive upholstery. This material is not a cover but an integral part of the design.

Swivel base with armrests in polished or chromed aluminium. Glides for hard or soft floor.

Upholstered in Netweave, Hopsack, Leather with Plano leather back panel, or premium leather with Plano back panel.

This chair, as well as all others in the Eames Aluminum Group, includes a 30-year guarantee.

Dimensions

58w x 59d x 40/83cmh

Herman Miller has the sole license for the Charles and Ray Eames collection in the U.S. and Far East. Therefore export of these products from the UK to the U.S. is not possible.
