

HAL Ply Wood chair

Jasper Morrison, 2012

Description

HAL Ply Wood chair by [Jasper Morrison](#) for [Vitra](#).

With HAL, Jasper Morrison has created a new interpretation of the multifunctional shell chair, as well as a broad chair range with a distinct, contemporary look. The shape of the HAL shell provides plenty of freedom of movement and is slightly yielding to permit a number of seating positions - including sideways and astride - to ensure a dynamic and ergonomic posture.

The variety of bases, materials and colours in the HAL range enable a range of possible combinations that can be used for many different purposes both in the office and public spaces as well as at home.

HAL Ply Wood has a non-stackable wooden base in natural or dark oak or black-pigmented walnut. Connecting parts between shell and base are die-cast aluminium powder-coated in dim grey.

Plywood shell is available in natural or dark oak with a protective varnish or black pigmented walnut.

Glides for hard or soft floors.

Use [Vitra's configurator](#) to explore options for available finishes.

Dimensions

47.1w x 49.1d x 47.1/79.4cmh
