

# Eames LTR occasional table

Charles & Ray Eames, 1950

## Description

**Eames LTR occasional table** by [Charles & Ray Eames](#) for [Vitra](#).

Charles and Ray Eames designed the LTR (Low Table Rod base) as a small, variable side table and even had several different versions of them in the Eames House. Even today there are many of these tables standing there, individually or in groups, decorated with objects from the Eames collection or simply acting as side table next to armchairs and sofas.

Steel base available in chrome or basic dark powder-coated finish. Hard laminate-coated plywood table top in white, black or gold leaf finish. Solid wood table tops available in oiled walnut, natural oak, and smoked oak. Vitra has introduced a new American cherry veneer table top finish.

Quickship: 2 week delivery for white finish.

Dimensions:  
39.2w x 33.5d x 25cmh

Herman Miller holds the sole license for the Charles and Ray Eames collection in the U.S. and Far East. Therefore export of these products from the UK to the U.S. is not possible.
