

Eames RAR rocking chair

Charles & Ray Eames, 1950

Description

Eames RAR rocking chair by [Charles & Ray Eames](#) for [Vitra](#).

Plastic Armchairs were first presented as part of the famed New York Museum of Modern Art competition, "Low Cost Furniture Design". Their organically shaped seat shells made of fibreglass-reinforced plastic were later combined with various different bases, such as RAR's rockers and manufactured in their millions. In their latest version made of polypropylene the Armchairs now offer even greater sitting comfort.

Seat shell in dyed-through polypropylene in a range of colours. Four legged braced wire base on two wooden rockers with clear varnish.

RAR = Rocking Armchair Rod Base

For more information regarding left or right-hand armrests, full specification and fabric information please enquire for details.

Dimensions

62.5w x 69d x 33/67cmh
