

PP266 Chinese bench

Hans Wegner, 1946

Description

PP 266 Chinese bench by [Hans Wegner](#) for [PP Møbler](#).

The Chinese bench is a development of the Chinese chair.

The Chinese Bench remained a prototype until 1991 when it was finally possible to put it into production, thanks to the pioneering experiments at PP Møbler with the pre-compression wood bending technique.

Still the Chinese Bench poses a great challenge to even the most skilled craftsmen, not merely because of the woodworking, but also because the long paper cord seat demands an unusual degree of accuracy in order to appear linear.

Natural colour or black papercord seat with frame in ash.

Frame available in the following finishes: soaptreated, clear bio oil, white bio oil, lacquered, black oil or black lacquered.

Dimensions

132w x 58d x 43/80cmh
