

JM Fionda dining chair

Jasper Morrison, 2013

Description

JM Fionda stackable dining chair by [Jasper Morrison](#) for [Mattiuzzi](#).

The Fionda range of furniture features a solid ash folding frame with a seat made from canvas which suspends the occupant with similar principles to hammocks.

Morrison explained that the inspiration for Fionda came from a camping chair bought in Japan and located in his living room. To make the seat more comfortable and a real living room chair, he decided to make a project out of removing the aluminium X bars at the front and back. The result is a light and strong chair which can be stacked horizontally with the covers off.

Available with natural ash or black ash frame with natural, black or orange canvas.

Dimensions
53w x 54d x 83cmh
