Vilhelm Wohlert, 1959

Description

Wohlert Satellite pendant by [Vilhelm Wohlert](#) for [Louis Poulsen](#).

In 1959 Louis Poulsen tasked Wohlert with designing a pendant for various sized rooms, with easy installation, bulb changes, and maintenance. The result was the Satellite. A matte white opal glass fixture, providing uniform, general and diffuse illumination. The opening at the bottom of the glass produces downwards directed light. The quality of the glass ensures that the fixture is evenly lit.
