

Opala pendant light

Hans Wegner,

Description

Opala pendant light by [Hans Wegner](#) for [Pandul](#).

The Opala MIDI pendant light was one of three Opala lamps originally designed for Hotel Scandinavia in Copenhagen. The pendant was sold for many years both for offices, public buildings, private homes, and for large projects like the Churchill College in Cambridge designed by architect Henning Larsen.

The Opala pendant once was manufactured in a maxi size; vintage editions are very rare. The Opala Pendant is now available in a new mini size, never previously produced, as well as the midi size.

Shade manufactured in impact-resistant, high-gloss acrylic, top in wet-painted aluminium. Impact-resistant acrylic shade contains rubber, ensuring it gives out a warm glow regardless of the bulb used.

Available with white, light grey or red top with white 400cm textile cord. Available with black top with black cord.

Dimensions:

Mini 43dia x 20.5cmh

Midi 51dia x 28.5cmh

Weight:

Mini 2.1kg

Midi 2.3kg

Bulb:

Mini max 75W incandescent or fluorescent

Midi max 100W incandescent or fluorescent
