

HAL Armchair Tube stackable

Jasper Morrison, 2014

Description

HAL Armchair Tube stackable by [Jasper Morrison](#) for [Vitra](#).

Jasper Morrison has added a new option to the HAL chair family: the HAL Armchair. Based on the HAL seat shell, he developed an organic one-piece shell that takes on a distinctive look of its own with the curved armrests 'growing' out from the sides - while still bearing a clear family resemblance to the rest of the line. The shell construction responds to the physical forces operating on the seat and provides maximum stability and superb comfort with a minimum amount of material.

Stackable four-legged tubular steel base with chrome-plated finish. Dyed-through polypropylene seat in a range of colours.

Castors or glides for hard or soft floors.

Optional seat cushion upholstered in Hopsak fabric. See downloadable product information or use the [Vitra configurator](#) for this design to explore options.

Please note: HAL Armchairs with seat cushions are non-stacking.

Dimensions:
62.5w x 51d x 79.5cmh
