

Rituals pendant light

Ludovica and Roberto Palomba, 2013

Description

Rituals pendant light by [Ludovica and Roberto Palomba](#) for [Foscarini](#).

The Rituals suspension lamp translates the lightness of washi paper (used in oriental lanterns) into glass lights. Foscarini's experience, combined with the skill of master Murano glassmakers made this design possible.

The Rituals collection offers a choice of three diffuser shapes in hand-blown glass. Available with E27 lampholder.

Made using a glass-blowing procedure without turning the glass in the mould. The striped effect is achieved using a mould with negative decorations which are repeated across the surface of the glass, this is subsequently ground manually. Finally the light undergoes immersion in acid in order to emphasise the plaster-like effect.

The Rituals pendant lamp emits a very soft, evocative light. Each shape has a different function and position. In a composition they form a single, luminous object for a large space.

Available in white.

Supplied with 3.4cm cable. Also available with 10m cable.

Please note: price shown is for individual lights.
