

Aston conference chair

Jean-Marie Massaud, 2006

Description

Aston conference armchair by [Jean-Marie Massaud](#) for [Arper](#).

Armchair with five way swivel base in polished aluminum, mounted on self-braking castors, equipped with gas height adjustment mechanism. The polyurethane shell is upholstered in leather, faux leather, fabric, or customer's fabric.

Strong and decisive, Aston sits at the head of the table. Defying the conventions of the typical boardroom chair or executive lounge, its linear profile and aerodynamic lines are engineered for comfort and performance. With mechanics sheathed in its sleek form, Aston is ergonomic yet light, making it perfect for both home and work.

A multi-disciplinary practice devoted to brand, architecture, industrial and furniture design, Studio Massaud was founded in 1996 by Jean-Marie Massaud and Daniel Pouzet. Massaud's aesthetic is characterized by the quest for synthesis, lightness, transparency and the reduction of the superfluous. The studio is an incubator for visual ideas that explore the delicate balance between the physical environment and the economic realities of contemporary experience.

For upholstery options please see downloadable pdf. Upholstery price grades can be found on the left-hand margin of each page.

Available in a 4 leg base with a swivel, return mechanism, or 5 ways with a wheeled gas base.

Please refer to 'Product Downloads' for other upholstery examples.
