

CH825 sideboard

Hans Wegner, 1958

Description

CH825 sideboard by [Hans Wegner](#) for [Carl Hansen & Son](#).

Wegner's Credenza from 1958 is based on Wegner's original drawings and was originally one of a series of three credenzas.

Although it looks simple, the credenza features an advanced design with roller shutter doors, requiring double sides and rear panel, between which the roller shutters run on a track and disappear when opened.

The interior features adjustable shelves and pull-out drawers designed to enable simple installation of additional drawers.

The credenza, originally made of rosewood and teak, is today made from solid treated oak or walnut with oak interior shelves and drawers. The legs are available in oak, walnut or looped steel.

Available in oiled oak, white oiled oak or oiled walnut.

Dimensions:
200w x 49d x 80.8cmh
