

# IC C/W1

Michael Anastassiades,

**Description**

**IC C/W1 wall/ceiling lamp** by [Michael Anastassiades](#) for [Flos](#).

The inspiration behind this collection comes from an online video clip of a contact juggler. He was spinning a set of spheres, moving them around. Michael Anastassiades has captured the moment when the spinning balls look perfectly still at the edge of his fingers: the blown glass opal diffuser balances perfectly on the edge of a rod.

The name for the collection, IC, is a playful take on how English police defines the perceived ethnicity of a person they stop in the street when reporting back to the station. Here, IC1, IC2 and IC3 are interpreted as different designs rather than ethnicities.

The lamps provide a diffused light and the frame is available in brushed brass with a transparent varnish, chrome or black steel.

Blown glass opal diffuser.
