

# Obliqua wall light

Daide Groppi, 2011

## Description

**Obliqua wall light** by [Daide Groppi](#).

Obliqua achieves the seemingly impossible, providing illumination from a minimal wall-mounted structure of folded metal.

LED light sources integrated within the rectangular metal frame provide effective up- and downlighting allowing the space at the centre of the frame to remain completely free and see-through from top to bottom.

The ideal lighting feature for open staircases or corridors where its structural qualities can be appreciated from all angles. Equally suited to placing above a bathroom mirror.

Can be used singly or in multiple arrays for striking effect.

Available in matt white or matt black exterior with matt white interior finish with non-dimmable LED light source.

Dimensions  
30w x 15d x 5cmh

Light source  
110/240V 15W LED 3000K 1280lm
