

Hug high-backed sofa

Claesson, Koivisto & Rune, 2013

Description

Hug sofa by [Claesson, Koivisto & Rune](#) for [Arflex](#).

Claesson Koivisto and Rune describe the Hug range as "our answer for a new iconic design, made to measure for Arflex". The Hug seating range is designed to embrace the sitter, creating a sense of refuge and relaxation. At the same time, its neat profile and elegantly slender base ensures it has great poise and elegance.

The Hug seating range consists of a standard sofa, a high-backed sofa, lounge chairs and arm chairs. The metal base structure features wood details and adjustable black pvc feet. The seat and backrest are upholstered moulded polyurethane foam, with a polyester slip cover.

The Hug sofa is available in a wide range of Arflex upholstery fabrics and leathers. See the downloadable spec sheet for details. The cover is fully removable. All fabrics available to view at our showroom.

The metal base is available in black of gunmetal grey lacquered finish. White, burnished and golden lacquered base is available at a surcharge. See the downloadable Hug base finishes spec sheet for details.

Alternative colours are available for the lacquered finish at an additional cost. These are included on the Hug base finishes spec sheet.

The wood detailing of the base is available in Oak, Walnut Canaletto, Wenge or Chocolate stained ash. See the Hug base finishes spec sheet for details.
