

Clara wall/ceiling light

Piero Lissoni, 2015

Description

Clara wall/ceiling light by [Piero Lissoni](#) for [Flos](#).

Clara is a simple and elegant light for walls or ceilings, suitable for providing strong and diffuse lighting. An opal white diffuser lends purity to the light's rounded and perfectly proportioned form, while its special LED distribution ensure illumination that is even, glare free and comfortably bright.

A ring structure made of polycarbonate with a mirror gloss finish is available in four different finishes: transparent, black, chrome or copper. This can be fixed to encircle the diffuser and perfectly frame it, matching the environment as required.

Diffuser made from high-efficiency injection-moulded opal polycarbonate with a wall/ceiling fitting in injection-moulded polycarbonate. The dimmable LED light source is powered directly by mains voltage, without the need for a power/supply transformer.

Light source (included): TOP LED 44W

Dimensions
60dia x 5cmd
