

Lightwood armchair mesh

Jasper Morrison, 2013

Description

Lightwood armchair cushioned by [Jasper Morrison](#) for [Maruni](#).

“Like many previous chair projects I have designed, the Lightwood Chair is about structure, making use of the unbeatable craftsmanship of Maruni’s wood technology to achieve a light wooden structure. This can be completed with a variety of different solutions for the seat, starting with the lightest - a white mesh - which leaves the structure partially visible, then a woven webbing which reminds us of shaker furniture (except that it’s a synthetic webbing which makes an interesting contrast with the wood), and then the more traditional upholstered seat in fabric or leather, which provide extra comfort and can be removed for cleaning. It’s a contract chair which is equally suited to the home.”

Jasper Morrison

Available in maple in the following urethane finishes: clear, black, matt white. Also available in oak in clear and whitish urethane, and in ash with a clear urethane finish. See downloadable spec sheet for details.

Seat consists of a white synthetic mesh. Also available with a webbing or cushioned seat - see 'More products in this range' below

Dimensions:
52w x 47.8d x 45/79.8cmh

Product code

MARU-2532*

Delivery
