

Vila dragonfly magnets

Studio Macura, 2015

Description

Vila dragonfly magnets by Studio Macura.

A decorative magnet in the form of a dragonfly, made using 3D-printed polyamide. The use of 3D printing technology allows the creation of a minutely detailed polyamide form that is lightweight, thin and elegant while remaining extremely durable and functional.

A magnet embedded at the back of the dragonfly allows it to attach to magnet boards, fridge fronts or any other steel surface. Use to hold in place paper, cards, notes or even lightweight objects such as jewellery.

Available in grey and red.

Dimensions
6.2w x 1d x 5.3cmh
