

Heracleum Endless light

Bertjan Pot, 2014

Nickel Heracleum Endless (single units with no connectors)

Description

Heracleum Endless pendant light by [Bertjan Pot](#) for [Moooli](#).

Decorative LED lamp from Moooli inspired by the Heracleum Plant. The Heracleum Endless pendant light is a perpetual blossom of new branches that can be added to by the meter. The possibilities are almost limitless by combining straight lines, angles and corners.

'Leaves' play out from 'stems' creating a very technical but natural structure. This pendant light design is created by using the technique of coating conductive layers which would not be possible with normal wires.

The Heracleum 'leaves' are not frozen in one position. They can be freely re-positioned by rotating them around their stem. Heracleum includes a new LED which is much more efficient while providing unique and sparkling illumination.

Metal wire frame available in a copper or nickel finish, polycarbonate lenses, steel canopy. Complete with 4m translucent cables. Dimmable with mains voltage dimmer (dimmer for incandescent, halogen). Please make sure to use a dimmer rated for a low power luminaire.

Available as 116cm sections with 2 types of connector, either 90 or 135 degrees or with end cover set.

2 suspension wires for each section.

Dimensions

116w x 57d x 37cmh

Specifications:

Powered through Electrosandwich® by Marcel Wanders.

One straight connector included.

Input voltage: 220-240V ~ 50Hz AC

Power consumption: MAX 12W

Colour Temperature: 2700K / CRI 85

Dimmable: Mains dimmable, with recommended dimmer only.

Luminous flux (Lumen, lm): 400 lm

Light source: 45 x LEDs per section

Cable Length: 4m, 10m available upon request

Cable Colour: Transparent

Canopy: One pebble per section, in matching colour
