

Oskar table lamp

Ingo Maurer, 1998

Description

Oskar table lamp by [Ingo Maurer](#).

Technically advanced lighting is fused with personality and humour throughout Ingo Maurer's iconic collection. The Oskar table lamp is a bookend and provides targeted lighting for large and small shelves. The flexible metal arm allows variable adjustment of the reflector to provide directional light. 4m cable allows Oskar to be used on large shelving units. Also works well on a desk but the head must only be adjusted using the rod below the lamp as the unit gets hot.

Made from anodized aluminium, reflector with protective glass cover. Please see downloadable pdfs for further information.

Bulb:
Halogen bulb 50 W, 230 V, secondary output 12 V, 860 lm (included), 2900 K, 4000 h, GY 6.35

Dimensions:
19w x 10d x 33cmh
