

Tom Vac chair

Ron Arad, 2008

Description

Tom Vac chair by [Ron Arad](#) for [Vitra](#).

The elegant plastic shell of the Tom Vac chair provides comfortable seating indoors and out - special additives in the shell retard the fading effect of sunlight and help to preserve the colour. The chair is stackable to a height of 5 chairs and suitable for indoor or outdoor use (powder coated finish only).

Dyed-through polypropylene shell in white or basic dark with stackable four-legged tubular steel base.

Fitted with plastic glides for carpet, or felt glides for hard floors.

Please note: If exposed to sunlight for prolonged periods the colour may change over time. We recommend limited exposure to sunlight.

Dimensions
64w x 64d x 41/75cmh
