

PH 2/1 pendant

Poul Henningsen,

Description

PH 2/1 pendant by [Poul Henningsen](#) for [Louis Poulsen](#)

The PH 2/1 pendant is designed based on the principle of a reflective three-shade system, which directs the majority of the light downwards. The shades are made of mouth-blown opal three-layer glass, which is glossy on top and sandblasted matt on the underside, giving a soft and uniform light distribution.

Shades in mouth-blown white opal glass. Suspension in high lustre chrome plated spun aluminium, black metallised, or brass metallised finish.
