

# Wooden side table

Ronan & Erwan Bouroullec,

## Description

**Wooden side table** by [Ronan & Erwan Bouroullec](#) for [Vitra](#).

In their shape and construction, the Wooden side tables correspond to the Metal side tables created for Vitra by the Bouroullec brothers in 2004. They are light enough to be easily moved around the home and serve a wide variety of purposes. With a distinctive voluminous, plinth-like base and thin table top, they are both elegant and functional.

A unique feature of the Wooden side table is the gently moulded edge to the table top, which lends the tables a Japanese quality.

Made of moulded plywood with a natural oak, dark oak, or walnut veneer. Felt glides make them suitable for hard or soft flooring.
