

Domus chair upholstered

Ilmari Tapiovaara , 1946

Description

Domus chair designed by [Ilmari Tapiovaara](#) for [Artek](#).

Please note: due to the foam used in its construction, this chair is available for contract use only.

He created the now iconic Domus Chair in 1946 as a multipurpose seat for the Domus Academica student housing complex in Helsinki.

The pressed birch plywood seat and back were shaped to provide students comfort, while the stackable solid birch frame meant it could save space in hallways, conference rooms and auditoriums.

As Jukka Savolainen, director of Helsinki Design Museum explained "Tapiovaara wanted good design for everyone. He did Ikea before Ikea, good quality pieces at an affordable price - the same kind of packaging and mass production ideas as Ikea has done."

The Domus upholstered chair is available in a range of finishes: natural lacquered birch, black stained birch, honey stained birch, white stained birch or natural lacquered oak.

Pricing example is for an upholstered Domus chair, an un-upholstered version is also available, please view 'More products in the range' below

Dimensions

58w x 54d x 44.5/79cmh
