

Five pouf

Anderssen & Voll, 2011

Description

Five pouf by [Anderssen & Voll](#) for [Muuto](#).

The Five pouf explores both the rigidity and the possibility of the pentagon. This shape lends itself to the function of a pouf, with a bold form that tessellates easily with other items of soft furniture and works equally well as a standalone piece.

The textiles have been meticulously chosen to mould easily to this shape and provide a comfortable quilting. The tailored stitching creates a ribbed effect, and gives the impression that the material is wrapped smartly around the pouf.

Available in two sizes and upholstered in a range of fabrics, grouped according to price. Please see groups below and follow the links for detailed fabric information:
