

# All Plastic Chair

Jasper Morrison, 2017

**Description**

**All Plastic Chair** designed by [Jasper Morrison](#) for [Vitra](#).

Jasper Morrison's APC chair recalls the simple form of the traditional wooden chair, but uses new materials and production techniques to offer enhanced comfort, functionality and adaptability.

The chair frame is cast as a single piece of high-performance dyed-through polypropylene. The organically-shaped seat and back rest are moulded to offer ergonomic support using a polypropylene which is less rigid than the frame to optimise support and comfort.

Additional comfort is offered by the rubber buffers which cushion the junction between the frame and the backrest, allowing a gentle degree of flex in response to the sitter's movements.

The use of two different types of plastic for frame and seat is articulated by having seat and backrest in a slightly lighter shade of the frame colour, bringing a distinctive two-tone effect to the chair.

Available in the following colours: ice white, ice grey, buttercup, ivy, graphite grey, brown, brick.

Select whether glides for carpet or felt glides for hard floors are required.

The All Plastic Chair is water and sunlight-resistant, making it suitable for outdoor use and presenting a highly flexible option for both contract and domestic settings.

**Dimensions**

42.5w x 46d x 44.5/77cmh

**Product code**

VIT-440-388-\*

**Delivery**

Made-to-order: 6-8 weeks

**Price**

£198.00
