

Beetle tube chair

GamFratesi, 2017

Description

Beetle tube chair by [GamFratesi](#) for [Gubi](#).

The Beetle dining chair was designed in 2013 and shown during the Milan Mindcraft exhibition. This annual exhibition promotes the very best of Danish design such as GamFratesi's Beetle range.

The duo were inspired by the eponymous insect and the way its hard shell protects the insect's soft body. They have recreated this shell in laminated moulded veneer while the soft padding is made of moulded polyurethane foam. The chair is fully upholstered in a wide range of fabrics with hand sewn piping.

Tubular steel legs in black, chrome, brass, black chrome or antique brass.

The beetle chair is also available with wooden legs, swivel base, or with castors. Please see "more products in the range" below

Available in a range of upholstery fabrics; see downloadable Gubi upholstery options pdf for details.

Dimensions:
56w x 55d x 45/87cmh
