

In The Tube pendant

, 2017

Description

In The Tube pendant by **Dominique Perrault** and **Gaëlle Lauriot-Prévost** for [DCW éditions](#).

Inspired by the industrial striplights commonly found in French power stations, In The Tube pendant is a decorative and highly flexible pendant light. The light can be hung vertically on a single wire, or horizontally on two wires.

A borosilicate glass tube houses the LED filament bulbs in a linear formation. Stainless steel collars and aluminium stoppers sealed with silicone ensure the light is entirely water and weather resistant, making it suitable for use indoors and outdoors.

A choice of reflector allows control over the colour of the light. The reflector sits behind the bulbs, and is available in three finishes: silver, copper, and gold. Silver emits the coolest light, whilst gold emits the warmest.

An optional mesh is available to further diffuse the light. The mesh sits inside the tube around each bulb, and is available in silver or gold.

The outdoor option includes a connection box to protect wiring from water and humidity. This box can also be used to hide and neaten wiring when hung indoors. To include a connection box in your order, please choose the outdoor option.

Tube dimensions

Small: 12dia x 37cmh

Medium: 12dia x 52cmh

Large: 14dia x 72cmh

Extra large: 14dia x 132cmh

Bulb (not included)

Small: 2 x E14 LED/CFL 11W Max.

Medium: 2 x E14 LED/CFL 11W Max.

Large: 4 x E27 LED/CFL 23W Max.

Extra large: 6 x E27 LED/CFL 23W Max.

IP 64 rated.
