

Pleat Box LED

Xavier Mañosa & Mashallah ,

Description

Pleat Box LED pendant light by [Xavier Mañosa & Mashallah](#) for [Marset](#)

The Pleat Box is available with an integrated LED technology, projecting indirect light while preventing glare.

The ceramic pendant light features a silhouette resembling a creased piece of cloth.

The outer part of the lamp is offered in white ceramic, brown, black, terracotta and grey - the result of recycling different enamels. The brilliant white enamel interior creates a glitter effect, which enhances the light from the lamp. It can also be supplied in gold on the inside, which generates an extremely warm light.

Bulb, dimmable (included)
