Alba 382

Description

Alba floor light by **Mariana Pellegrino Soto** for **Oluce**.

The Alba range is inspired by nature. A single droplet of water provides the inspiration behind Alba's smooth, blown glass diffuser. This contrasts neatly with the square outline of satin brass to create a modern but classic light.

Available in two models, both of which feature a solid, square-section stem in satin brass finish, rising up from an anthracite base.

The Alba 382 floor light features a single downward facing opaline glass diffuser on right-angled branch.

The Alba 383 floor light features one downward facing diffuser and one upward facing diffuser in opaline glass.

Dimmer switch on cable.
