

IC S1 special edition

Michael Anastassiades, 2018

Description

IC S1 pendant light, special edition black designed by [Michael Anastassiades](#) for [Flos](#).

Michael Anastassiades' acclaimed IC lighting collection for Flos includes table lights, wall lights, floor lights, ceiling pendants and ceiling mounted lights. For 2018 a new finish has been added to this minimal and sculptural lighting family in the form of a special edition matt black steel frame that perfectly complements the poised glass shade. This limited edition light is only available from select retailers.

Anastassiades drew original inspiration for this design from a film of a contact juggler spinning a set of spheres. This elegant and artfully composed family of lights capture a moment of balance, perfectly preserved in the form of a blown glass opal diffuser held on the edge of a slender armature.

In turn, the name of the collection offers a playful take on the system used by English police officers to define the perceived ethnicity of people stopped in the street when compiling incident reports. Here, IC 1, IC 2 and IC 3 are interpreted as different designs rather than ethnicities.

The lamps provide a diffused light and the frame is also available in the standard edition finishes of brushed brass with a transparent varnish or in chrome steel.
