

Slow Coffee paper filters

Description

Slow Coffee paper filters by [Kinto](#).

Coffee aficionados consider the pour-over brewing process (pouring hot water over freshly ground beans to release their flavour) to result in the most fully flavoured and delicately balanced cup of coffee.

Kinto's Slow Coffee family of accessories have been meticulously crafted to enhance every aspect of the coffee-brewing process, introducing a considered thoughtfulness to this daily act and allowing you to produce your ideal hot drink.

Slow Coffee paper filters are made out a blend of cotton and wood pulps, producing an efficient and gentle filtering material that releases the clear, rounded taste of ground coffee beans while sieving out any small particles.

Use with Kinto's [porcelain brewer](#).

Each packet contains 60 filters, with each sized to contain enough coffee to make two cups.

Dimensions
100dia x 10.5cmh
