

TR Bulb wall/ceiling light

Tim Rundle, 2017

Description

TR Bulb wall/ceiling light by [Tim Rundle](#) for [Menu](#).

The TR Bulb is an ingenious solution of an opal glass sphere that can simply be screwed into an existing pendant socket hanging from the ceiling - meaning that no electrical expertise is needed.

The collection is inspired by how people are becoming urban nomads, moving between cities and countries. The TR bulb is designed to be taken from apartment to apartment. The spherical opal glass diffuser hides the light fitting and creates an even, harmonious glow at the same time as it's preventing glare.

The TR Bulb range also includes a pendant light, wall/ceiling light, suspension frame, and a bulb on its own that can be used on any E27 socket.

Opal glass in a shiny or matte finish with black powder-coated steel base.

Light source
dimmable LED E27(included)

Dimensions
16cm dia base/ 20cm dia sphere x 22cmh
