

# Panton Chrome Chair

Verner Panton, 1959

## Description

**Chrome Panton chair** by [Verner Panton](#) for [Vitra](#).

The pioneering Panton chair was first produced in 1967, gaining recognition as the first plastic chair moulded in one piece. 50 years after its launch, Vitra has issued the limited edition Panton Chrome chair.

Danish designer Verner Panton had explored the possibilities of a mirrored surface in the 1970s and it has now been realised as a finish for the iconic chair.

Specialised craftsmen create the striking mirrored effect using a complex metallisation process in which metal particles are embedded in multiple layers of varnish. The limited edition Chrome Panton highlights the Panton's sculptural form with the dazzling effect.
