

Reclining chair

Robin Day, 1952

Description

Reclining chair by [Robin Day](#).

“A good design should fulfil its purpose well, be soundly constructed and should express in its design this purpose and construction.”

Robin Day

The Reclining chair was originally designed in 1952 and was considered by Robin Day to be one of his most successful and iconic designs. The high comfort levels and clearly articulated structure fulfilled Day's exacting design sensibilities. The modernist vocabulary of the Reclining chair encapsulates principles that were inherent in much of his wide body of work.

Softwood frame with foam and elasticated webbing. Adjustable head-cushion. Fixed upholstery in the following range of fabrics and leathers selected by twentytwentyone:
